Safety Instructions

The Lightning flash with the arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of un-insulated "DANGEROUS VOLTAGE" within the product's enclosure that may be of sufficient magnitude to constitute a risk or electric shock to persons.

The Exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing instructions in the literature accompanying the product).

Important Safety Instructions:

Read Instructions - All the safety and operating instructions should be read before the product is operated.

Retain Instructions - The safety and operating instructions should be retained for future references.

Heed Warnings - All Warnings on the product and in the operation instructions should be adhered to.

Follow Instructions - All Operating and user instructions should be followed.

Cleaning - Unplug this product from the wall outlet before cleaning. DO NOT use liquid cleaners or aerosol cleaners. Use damp Cloth for cleaning.

Attachments - DO NOT use attachments not recommended by the product manufacturer they may cause hazards.

Keep Away From Heated Areas – Do not place the LCD TV near heat; for example, near a radiator, stove, or other heating device.

Water - DO NOT use this product near water. For example: Avoid placing it near bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.

Cabinet Slots - NEVER push objects or any kind into the unit through the cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. NEVER spill liquid of any kind on the product.

Important Safety Instructions Continued

Ventilation - DO NOT block any ventilation openings. Install in accordance with manufacturer's instructions. Slots and openings in the cabinet and the back and bottom are provided for ventilation, and to ensure reliable operation of the product and to protect it from Overheating. These openings must NOT be blocked or covered. There should be at least 10cm of space from these openings. The openings should never be blocked by placing the unit on a bed, rug or other similar surface.

This product should NOT be placed in a built-in installation such as a bookcase unless proper ventilation is provided.

Grounding or Polarization - This product may be equipped with a polarized alternating current line plug (a plug having one blade wider than the other). This plug will fit the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet.

DO NOT defeat the safety purpose of the polarized plug.

Power Cord Protection - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at plugs, convenience receptacles, and the point where they exit from the product.

Power Sources - This product should be operated only from the type of power source indicated on the rear panel. If you are not sure of the type of power supply to your home consult your product dealer or local power company.

Lightning - For added protection for this product during a lightning storm, or when it is left unattended and unused for a long period of time, unplug it from the outlet and disconnect the antenna or cable system. This will prevent damage to the product due to lightning and power-line surges.

Power Lines - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits.

When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

Overload - DO NOT overload wall outlets, extension cords or integral convenience receptacles as this can result in a risk of fire or electric shock.

Important Safety Instructions Continued

Damages Requiring Service - Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions :

1. When the power-supply cord or plug is damaged.
 2. If liquid has been spilled, or objects have fallen into the product.
 3. If the product has been exposed to rain or water.
 4. If the product does not operate normally after following the operating instructions.
- Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
5. If the product has been dropped or damaged in any way.
 6. When the product exhibits a distinct change in performance - this indicates a need for service.

Replacement parts - When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part.

UNAUTHORIZED substitution may result in fire, electric shock or other hazards.

Safety Check - Upon completion of any service or repair to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

Heat - The Product should be situated away from heat source such as radiators, heat registers, stoves or other products (including amplifiers) that produce heat.

Mounting - DO NOT place this product on an unstable cart, stand, tripod, bracket, or table.

The product may fall, causing serious injury to a child or adult, and serious damage to the product. Use only with a cart, stand, tripod, bracket, or table recommended by the manufacturer or sold with the product. Any mounting of this product should follow the manufacturer's instructions, and should use a mounting accessory recommended by the manufacturer.

Operate - Do not apply excessive force to operate the switch, control key and connector. Disconnect the power plug from the AC outlet before you move the unit.

Screen care - Do not touch the screen directly with your fingers. You may damage the screen, oil from your skin is difficult to remove.

Do not apply pressure to screen. The LCD is very delicate.

Installation - Please install the LCD in a cool, dry and clean area, avoid heat, or excessive vibration, dust, humidity, extreme cold and magnetic devices.

Recycling - This product utilizes tin-lead solder, and has a fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated in your community due to environmental considerations. For disposal or recycling information please contact your local authorities, or the Electronics Industries Alliance: <http://www.eiae.org/>

1. INTRODUCTION

Product Description

Thank you for choosing the TFT-LCD Color TV/Monitor and for your continued support and use of our products. The Product combines the features of a TV/MONITOR with a THIN FILM TRANSISTOR liquid crystal display (TFT-LCD). This new generation of TFT-LCD incorporates a high quality display in a light weight module, power-saving capabilities, and emits no radiation.

The features a color-active matrix/ Thin-Film-Transistor (TFT)/ Liquid Crystal Display (LCD) to provide superior display performance. A maximum resolution (See Specifications) is ideal for displaying complex graphics and high definition images from your computer.

The Product has many features, such as multiple analog video signal inputs, multiple analog audio signal inputs and outputs, large high quality 2D stereo speakers, and high-level amplifier connections that provide a top-of-the-line audio and video experience. In addition, the TFT-LCD display allows a "Plug & Play" connection to your PC and has a built-in On Screen Display (OSD) function that allows you to adjust and operate the unit from the convenience of a remote control.

Product Features

- Wide viewing angel: Horizontal 160 ° / Vertical 140° (CR>=5)
- High brightness : 250 cd/m²
- High contrast ratio : 500:1
- Fast response time 20 ms (Typ)
- XGA (1024 x 768 pixels) resolution
- Display Color: 16 millions
- Auto-tune image optimization for VGA
- 2D De-interlace function
- HDTV support (YPbPr / YCbCr, 480i, 480p, 1080i, 720p) via the VGA port and an optional VGA to 3 RCA cable.
- Easy access top keypad controls (Menu, Volume up/down, CH up/down, Power)
- Built-in audio amplifier (2Wx2)
- Bundled 2W(max) x 2 stereo speaker
- Wall-mountable design.

Package Contents

Please check the LCD TV package to make sure it contains the following items:

15" TFT LCD

Power cord

User manual

AAA size x 2

Batteries (for remote control)

Remote Control

Adaptor

2. SYSTEM SETUP

Top Panel & Remote Control Function

1. VOL -	Decrease Volume / Left navigation key
2. MENU	a. ENTER –Confirm Function b. MENU –Display Main Menu
3. VOL +	Increase volume / Right navigation key
4. Power	Power standby on or off
5. CH -	Decrease TV channel / Down navigation key
6. CH +	Increase TV channel/Up navigation key
7. IR	IR sensor
8. LED	Red—Stand by . Green—On .

SYSTEM SETUP

Remote Control Unit

SYSTEM SETUP

Remote Control Function

Remote Control Battery Installation & Removal

Insert the batteries **carefully**, following the polarity in battery case.

Change the batteries if the remote control does not function.

•Remote Control Operation

The Remote Control Transmission consists of an infrared (IR) Signal.

Make sure the line-of-sight between Remote Control and LT1560 is clear of objects that could interfere with the remote IR signal. Always point the Remote Control directly at the LT1560 sensor.

•CAUTION!

Avoid damaging the Remote Control by:

1. Applying excessive pressure when pressing buttons.
2. Exposing to extreme Low or High temperatures.
3. Exposing to excessive moisture.

SYSTEM SETUP

Assembly and Connection

Locate the power cable in the accessory box and connect it to the DC-IN connector

Plug the other end of the power cable into the wall outlet.

Input & Output Signal Connections

1	DC POWER ADAPTER INPUT
2	EARPHONE OUTPUT
3	ANT.CABLE INPUT
4	VIDEO INPUT
5	RIGHT AUDIO INPUT
6	LEFT AUDIO INPUT
7	S-VIDEO INPUT
8	PC AUDIO INPUT
9	VGA INPUT

SYSTEM SETUP

Input & Output Signal Connections

Connecting Coaxial Cable, Connecting Earphone

Connecting to S-VIDEO terminal equipment such as DVD, VCR or Gaming Console

SYSTEM SETUP

Input & Output Signal Connections

Connecting to AV equipment such as DVD, VCR and Gaming Console
(Cable is optional kit)

SYSTEM SETUP

Input & Output Signal Connections

Connecting from a PC via 1/8" Male-to-Male Stereo Cable (PC Audio)
(Cable is optional kit)

SYSTEM SETUP

Input & Output Signal Connections

Connecting to from a PC via 15-PIN VGA Cable (PC Video)

(Cable is optional kit)

4. REFERENCE

About VChip Control

Class option

The following categories apply to programs designed for the entire audience.

[TVY All Children.](#)

This program is designed to be appropriate for all children. Whether animated or live-action, the themes and elements in this program are specifically designed for a very young audience, including children from ages 2 - 6. This program is not expected to frighten younger children.

[TVY7 Directed to Older Children.](#)

This program is designed for children age 7 and above. It may be more appropriate for children who have acquired the developmental skills needed to distinguish between make-believe and reality. Themes and elements in this program may include mild fantasy violence or comedic violence, or may frighten children under the age of 7. Therefore, parents may wish to consider the suitability of this program for their very young children. Note: For those programs where fantasy violence may be more intense or more combative than other programs in this category, such programs will be designated TV-Y7-FV.

The following categories apply to programs designed for the entire audience.

[TVG General Audience.](#)

Most parents would find this program suitable for all ages. Although this rating does not signify a program designed specifically for children, most parents may let younger children watch this program unattended. It contains little or no violence, no strong language and little or no sexual dialogue or situations.

[TVPG Parental Guidance Suggested.](#)

This program contains material that parents may find unsuitable for younger children. Many parents may want to watch it with their younger children. The theme itself may call for parental guidance and/or the program contains one or more of the following: moderate violence (V), some sexual situations (S), infrequent coarse language (L), or some suggestive dialogue (D).

[TV14 Parents Strongly Cautioned.](#)

This program contains some material that many parents would find unsuitable for children under 14 years of age. Parents are strongly urged to exercise greater care in monitoring this program and are cautioned against letting children under the age of 14 watch unattended. This program contains one or more of the following: intense violence (V), intense sexual situations (S), strong coarse language (L), or intensely suggestive dialogue (D).

[TVMA Mature Audience Only.](#)

This program is specifically designed to be viewed by adults and therefore may be unsuitable for children under 17. This program contains one or more of the following: graphic violence (V), explicit sexual activity (S), or crude indecent language (L).

MPAA option

G: General Audiences -- All ages permitted.

PG: Parental Guidance Suggested -- Some material may not be suitable for children.

PG-13: Parents Strongly Cautioned -- Some material may be inappropriate for children under 13.

R: Restricted -- Under 17 requires accompanying parent or adult guardian.

NC-17: No One 17 and Under admitted.

Cleaning LCD Monitor

1. Please make sure that you have turned off this machine.

2. Don't put any liquid on LCD Monitor or plastic box directly.

Please NOTE when cleaning the LCD monitor.

1. Gently wipe screen with a clean, soft, lint-free cloth to remove dust and other particles that can scratch the screen.

2. To clean the tough areas, use a soft, lint-free cloth with a few drops of water to remove the stubborn dirt.

3. Do not apply pressure to the surface of the TFT-LCD

When you clean the housing:

1. Use a soft, dry cloth to clean housing.

2. To clean tough areas, use a soft, lint-free cloth with a few drops of water to remove the stubborn dirt.

Troubleshooting

Please use the following table to resolve the most common possible causes of the problem before calling service personnel. A minor adjustment may eliminate the problem and restore your TV reception.

Symptom	Corrective Actions
No picture screen	1. Check that power is turned on, or that power adapter lamp is lit. 2. Adjust brightness and contrast. 3. Check input signal of TFT-LCD. 4. Check the power connection to the unit with screen. 5. Check Main Display selection.
Picture is not clear	1. Check that Video cable is plugged in. 2. Refer to the Picture Adjustments Menu in the OPERATING INSTRUCTIONS .
Image is fuzzy	1. The power could be failing, try connecting the unit to another power outlet. 2. Move unit a way from the magnetic equipment, such as Wireless Receiver, AC Transformer ...etc. 3. Refer to the Picture Adjustment Procedure Menu in the OPERATING INSTRUCTIONS .
Colors are distorted	Check that the Video cable is plugged in securely.
Screen bounces or has wavy oscillations	1. Check Video input range (V-sync : Max. 75Hz, H-sync : Max.48.08KHz) 2. Make sure Video cable connections are secure.
No sound	1. Check speaker line connections. 2. Sound might be muted, try adjusting the volume.
Only one speaker operates	1. Check audio wire connections with source device. 2. Check the unit's speaker wires are securely connected.
Remote Control inoperative	1. Check for light or obstacle interference with remote control signal and move unit to another location. 2. Batteries are dead; replace batteries with new ones.
Poor Picture Reception and / or Poor Sound Quality	From TV SETUP mode, select the appropriate setting and Rerun AUTO PROGRAM.
When all else fails Reset the firmware	Turn on power. Press and hold the VOL+ button and VOL- on the top of the unit and hit the MENU button at the same time. For five seconds and release.

If the unit does not operate normally, after the operating instructions were followed. And the troubleshooting section did not help refer to dealer or qualified service personnel.

6. WARRANTY

CITIZEN WARRANTY

Consumer Electronics Products

Thank you for choosing Citizen!

Citizen Electronics gives the following express warranty to the original consumer purchaser or gift recipient for this Citizen brand product, when shipped in its original container and sold or distributed in Canada by Citizen Electronics or by an Authorized Citizen Dealer:

Citizen Electronics warrants that this product is free, under normal use and maintenance, from any defects in material and workmanship. If any such defects should be found in this product within the applicable warranty period, Citizen Electronics shall, at its option, repair or replace the product as specified herein. Replacement parts furnished in connection with this warranty shall be warranted for a period equal to the unexpired portion of the original equipment warranty.

This warranty shall not apply to:

- a. Any defects caused or repairs required as a result of abusive operation, negligence, accident, improper installation or inappropriate use as outlined in the owner's manual.
- b. Any Citizen product tampered with, modified, adjusted or repaired by any party other than Citizen Electronics or Citizen's Authorized Service Centres.
- c. Damage caused or repairs required as a result of the use with items not specified or approved by Citizen Electronics, including but not limited to head cleaning tapes and chemical cleaning agents.
- d. Any replacement of accessories, glassware, consumable or peripheral items required through normal use of the product including but not limited to earphones, remote controls, AC adapters, batteries, temperature probe, stylus, trays, filters, cables and paper.
- e. Any cosmetic damage to the surface or exterior that has been defaced or caused by normal wear and tear.
- f. Any damage caused by external or environmental conditions, including but not limited to transmission line/power line voltage or liquid spillage.
- g. Any product received without appropriate model, serial number and CSA/cUL markings.
- h. Any products used for rental or commercial purposes.
- i. Any installation, setup and/or programming charges.

Should this Citizen product fail to operate during the warranty period,

warranty service may be obtained upon delivery of the Citizen product together with proof of purchase and a copy of this LIMITED WARRANTY statement to an Authorized Citizen Service Centre. In-home warranty service may be provided at Citizen Electronics' discretion on any Citizen television with the screen size of 27" or larger. This warranty constitutes the entire express warranty granted by Citizen Electronics and no other dealer, service centre or their agent or employee is authorized to extend, enlarge or transfer this warranty on behalf of Citizen Electronics. To the extent the law permits, Citizen Electronics disclaims any and all liability for direct or indirect damages or losses or for any incidental, special or consequential damages or loss of profits resulting from a defect in material or workmanship relating to the product, including damages for the loss of time or use of this Citizen product or the loss of information. The purchaser will be responsible for any removal, reinstallation, transportation and insurance costs incurred. Correction of defects, in the manner and period of time described herein, constitute complete fulfillment of all obligations and responsibilities of Citizen Electronics to the purchaser with respect to the product and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise.
